## SUMMARY

**DevOps and MLOps Engineer** with **4 years of experience** in designing, automating and managing scalable cloud infrastructure on **Azure**. Proficient in **Terraform** and building robust **CI/CD pipelines** using **Azure Pipelines** and **GitHub Actions**. Skilled in **containerization** with **Docker** and **orchestration** using **Kubernetes**.

## TECHNICAL SKILLS

- **Cloud Services:** Azure
- **DevOps and Automation:** Terraform, Azure Pipelines, Docker, Kubernetes, GitHub Actions, ArgoCD, Linux, Shell scripting
- **Monitoring:** Prometheus, Grafana
- **Static Code Analysis:** SonarQube, Tfsec, Checkov, Trivy
- **Languages:** JavaScript, Python
- **Tools:** Git, Postman

## EXPERIENCE

**Genpact**  
*Consultant*

Dec 2025 – Present  
*Noida, India*

- Automated infrastructure provisioning using **Terraform** and **Azure Pipelines**, improving consistency across environments.
- Designed and implemented an end-to-end **MLOps pipelines** covering **model training, versioning** and **deployment**.
- Containerized **ML workloads** using **Docker** to ensure consistent and reliable deployments across environments.
- Implemented **KServe**-based model serving using standardized inference APIs for scalable cloud-native deployments.
- Designed and deployed a **Generative AI** solution using **Azure OpenAI** and **Azure AI Search**, ensuring scalable and secure cloud architecture.

**Capgemini Technology Services**  
*Senior Analyst*

Aug 2022 – Dec 2025  
*Bangalore, India*

- Managed **Azure infrastructure** using **Terraform**, optimizing resource utilization while ensuring security and compliance.
- Developed end-to-end **GitHub Actions** pipelines for a Python application, enabling GitOps-based deployments.
- Deployed and managed containerized applications in **Kubernetes clusters** using **Helm**, ensuring smooth automated releases.
- Maintained production environments ensuring high availability and scalability.
- Collaborated with development and QA teams to optimize **build, test and release cycles**, minimizing infrastructure issues.
- Created and optimized **Dockerfiles** to reduce image size and enhancing deployment efficiency and performance.
- Implemented monitoring using **Prometheus** and **Grafana**, improving system reliability.
- Experience administering and managing multiple **Linux** servers in production environments, including **system monitoring, performance tuning, patching, and troubleshooting**.

## CERTIFICATIONS

- **Microsoft Certified: Azure Fundamentals.** [link](#) *Sep 2023*
- **Microsoft Certified: Azure Administrator Associate.** [link](#) *May 2025*
- **AWS Certified Cloud Practitioner.** [link](#) *Oct 2022*
- **Generative AI Fundamentals.** [link](#) *Jun 2023*
- **MLOps Zero to Hero.** [link](#) *Mar 2026*

## EDUCATION

**B.Tech - Biotechnology**  
*SRM Institute of Science and Technology, Chennai*

2018 – 2022  
*CGPA: 8.59*

**Higher Secondary Education**  
*Vikash Residential School, Bhubaneswar*

2015 – 2017  
*80.6%*
